"Dychtwald and Morison offer a brilliant and convincing perspective: an essential re-think of what 'aging' and 'retirement' mean today and an invitation to help mobilize the best in the tidal wave of Boomer Third Agers." —Daniel Goleman, PhD, Author, Emotional Intelligence: Why It Can Matter More Than IQ

Throughout 99 percent of human history, life expectancy at birth was less than 18 years. Few people had a chance to age. Today, thanks to extraordinary medical, demographic, and economic shifts, most of us expect to live long lives.

Consequently, the world is witnessing a powerful new version of retirement, driven by the power and needs of the Baby Boomer generation. Consumers over age 50 account for more than half of all spending and control more than 70% of our total net worth – yet are largely ignored by youth-focused marketers. How will work, family, and retirement be transformed to accommodate two billion people over the age of 60 worldwide? In the coming years, we'll see explosive business growth fueled by this unprecedented longevity revolution. What Retirees Want presents the culmination of 30 years of research by world-famous "Age Wave" expert Ken Dychtwald, Ph.D., and author and consultant Robert Morison. It explains how the aging of the Baby Boomers will forever change our lives, businesses, government programs, and the consumer marketplace. This exciting new stage of life, the "Third Age," poses daunting questions: What will "old" look like in the years ahead? With continued advances in longevity, all of the traditional life-stage markers and boundaries will need to be adjusted. What new products and services will boom as a result of this coming longevity revolution? What unconscious ageist marketing practices are hurting people – and business growth? Will the majority of elder boomers outlive their pensions and retirement savings and how can this financial disaster be prevented? What incredible new technologies of medicine, life extension, and human enhancement await us in the near future? What purposeful new roles can we create for elder boomers so that the aging nations of the Americas, Europe, and Asia capitalize on the upsides of aging? Which pioneering organizations and companies worldwide have created marketing strategies and programs that resonate with the quirky and demanding Boomer generation? In this entertaining, thought-provoking, and wide-ranging book, Dychtwald and Morison explain how individuals, businesses, non-profits, and governments can best prepare for a new era – where the needs and demands of the "Third Age" will set the lifestyle, health, social, marketplace, and political priorities of generations to come.

The controversial science that claims to have revolutionised economics. For centuries, economics was dominated by the idea that we are rational individuals who optimise our own 'utility'. Then, in the 1970s, psychologists demonstrated that the reality is a lot messier. We don't really know what our utility is, and we care about people other than ourselves. We are susceptible to external nudges. And far from being perfectly rational we are prone to 'cognitive biases' with complex effects on decision-making, such as forgetting to prepare for retirement. David Orrell explores the findings from psychology and neuroscience that are shaking up economics – and that are being exploited by policy-makers and marketers alike, to shape everything from how we shop for food, to how we

tackle societal happiness or climate change. Finally, he asks: is behavioural economics a scientific revolution, or just a scientific form of marketing?

Turning Simple Disciplines into Massive Success & Happiness

Instant #1 New York Times bestseller. "The Atlantic writer drafts a history of slavery in this country unlike anything you've read before" (Entertainment Weekly). Beginning in his hometown of New Orleans, Clint Smith leads the reader on an unforgettable tour of monuments and landmarks—those that are honest about the past and those that are not—that offer an intergenerational story of how slavery has been central in shaping our nation's collective history, and ourselves. It is the story of the Monticello Plantation in Virginia, the estate where Thomas Jefferson wrote letters espousing the urgent need for liberty while enslaving more than four hundred people. It is the story of the Whitney Plantation, one of the only former plantations devoted to preserving the experience of the enslaved people whose lives and work sustained it. It is the story of Angola, a former plantation—turned—maximum-security prison in Louisiana that is filled with Black men who work across the 18,000-acre land for virtually no pay. And it is the story of Blandford Cemetery, the final resting place of tens of thousands of Confederate soldiers. A deeply researched and transporting exploration of the legacy of slavery and its imprint on centuries of American history, *How the Word Is Passed* illustrates how

some of our country's most essential stories are hidden in plain view—whether in places we might drive by on our way to work, holidays such as Juneteenth, or entire neighborhoods like downtown Manhattan, where the brutal history of the trade in enslaved men, women, and children has been deeply imprinted. Informed by scholarship and brought to life by the story of people living today, Smith's debut work of nonfiction is a landmark of reflection and insight that offers a new understanding of the hopeful role that memory and history can play in making sense of our country and how it has come to be.

"Hart's argument that we need to drastically revise our current view of illegal drugs is both powerful and timely . . . when it comes to the legacy of this country's war on drugs, we should all share his outrage." —The New York Times Book Review From one of the world's foremost experts on the subject, a powerful argument that the greatest damage from drugs flows from their being illegal, and a hopeful reckoning with the possibility of their use as part of a responsible and happy life Dr. Carl L. Hart, Ziff Professor at Columbia University and former chair of the Department of Psychology, is one of the world's preeminent experts on the effects of so-called recreational drugs on the human mind and body. Dr. Hart is open about the fact that he uses drugs himself, in a happy balance with the rest of his full and productive life as a colleague, husband, father, and friend. In *Drug Use for Grown-Ups*, he draws on decades of research and his own personal experience to argue definitively that the criminalization and demonization of drug use--not drugs themselves--have been a tremendous scourge on America, not least in reinforcing this country's enduring structural racism. Dr. Hart did not always have this view. He came of age in one of Miami's most troubled neighborhoods at a time when many ills were being laid at the door of crack cocaine. His initial work as a researcher was aimed at proving that drug use caused bad outcomes. But one problem kept cropping up: the evidence from his research did not support his hypothesis. From inside the massively well-funded research arm of the American war on drugs, he saw how the facts did not support the ideology. The truth was dismissed and distorted in order to keep fear and outrage stoked, the funds rolling in, and Black and brown bodies behind bars. *Drug Use for Grown-Ups* will be controversial, to be sure: the propaganda war, Dr. Hart argues, has been tremendously effective. Imagine if the only subject of any discussion about driving automobiles was fatal car crashes. *Drug Use for Grown-Ups* offers a radically different vision: when used responsibly, drugs can enrich and enhance our lives. We have a long way to go, but the vital conversation this book will generate is an extraordinarily important step.

MJ DeMarco's long awaited follow-up to the international best-seller, *The Millionaire Fastlane*, *UNSCRIPTED* is the definitive blueprint for escaping the cultural conditioning of the mundane and mediocre; learn how to create an awe-inspiring life using the power of entrepreneurship. *UNSCRIPTED* is not something you TRY, it is something you LIVE.

The Money Mentor is my take on the classic self-help book - with one major difference: It's a bullshit-free zone! If you're reading this, it's because you've recognised that your finances need help. Either that or your kids gave you the book as a Christmas stocking-filler, it's pouring with rain and there's nothing on telly this afternoon. Seriously, however you got here isn't important. The important thing is - you're here. Right here, right now is where you start getting control of your finances. This is where you stop throwing

money away like it's going out of fashion and start saving. This is where your financial worries start to lessen. This is where you and your family begin to get ahead in the game. What I do is very straightforward - I help ordinary Mums and Dads burdened with standard 30-year home loans, pay off those loans within 7 to 10 years. Yes, you read that correctly - you can be mortgage-free in 7 to 10 years simply by following a plan that we create together. It's not magic. There's no smoke and mirrors. It's not even a secret how we can do this together. In fact, I call it the 'not-so-secret, secret', because anyone can do it. Together, we examine your lifestyle and make a detailed assessment of your living expenses. Using that information, we then give every single dollar of your family's monthly income a specific purpose and structure it within a realistic budget. And guarantee to pay the loan off in 7 to 10 years. Paying your home loan off over 30 years is bullshit! It's the biggest rip-off. When you're sitting in your bank, arranging your home loan, their entire focus is on the minimum monthly repayment. That just means they're forecasting their juicy profits over a 30-year period. Profits that you're paying for. We can even pay off that 30-year loan earlier in some cases. One of our records is having cleared a mortgage in only 3.5! Mortgage-free in three and a half years - wouldn't everyone love to be in that position? Our aim is to disrupt the passive, inherited way of thinking encouraged by the banks and to completely change traditional Mum and Dad psychology. Not with idealistic nonsense and impossible to achieve pie-in-the-sky advice aimed at solving unrealistic or non-typical situations. This book is packed with proven, practical and realistic strategies that work. If you and your family follow the process that we all agree to in the beginning, you will achieve the results we predict at the start. Guaranteed!

We live in a world where evil habits and beliefs, block the desire to realize our every dream in this one and only our life. The world population wastes whole years doing what most successful people do not, hoping for success and prosperity. How much MONEY did you SPEND on training without ANY RESULTS? How long have you been looking for a solution or a process that allows you to LIVE FOREVER FREE FINANCIALLY? ARE YOU NOT SURE that the path you have taken or that you are planning to undertake will lead you to have the results that you DREAM OF? HOW did successful entrepreneurs become such? HOW did they make millions of dollars? Do you really BELIEVE that they will teach you how they did it? No one will ever teach you what the spark that allowed him to create his own empire was. Even today it is thought that behind every success there is the secret formula. The secret formula does not exist, but there is something here that nobody talks about, which in addition to becoming precious and mysterious, has allowed any successful man to become such. The PROCESS. The daily process that makes us believe we can succeed or not. That's right, we decide the course of our lives, our successes, and our failures. But, if our process is influenced by wrong beliefs, then dreams will remain only and forever dreams. We must be able to control our emotions and beliefs, and only with a precise process will we be able to do so. Millionaire Process is the process that every successful person has followed, continues to follow and will never stop doing so. Luis Lunson is willing to EXPLAIN what nobody yet explained and how to act to EARN your first MILLION DOLLARS and more. \$249 is too many money? The information you'll learn reading Millionaire Process is still being paid hundreds of thousands of dollars. If you want to succeed in your business and in your life you have to acquire these skills,

there is no way out. Then decide:- or you do not acquire them and you never get what you want- or acquire them by investing \$249 in yourself- or acquire them by purchasing training for hundreds of thousands of dollars, but I challenge you to find the one who is aware of true millionaire strategy I'll give you a little clue. only 0.5% of the world's entrepreneurs are aware of the true millionaire strategy. Making the right choices is one of the fundamental and basic skills that every entrepreneur must have.

What if Life Wasn't About 50 Years of Wage-Slavery, Paying Bills and then Dying? Tired of sleepwalking through a mediocre life bribed by mindless video-gaming, redemptive weekends, and a scant paycheck from a soul-suffocating job? Welcome to the SCRIPTED club— where membership is neither perceived or consented. A paradigm shift isn't needed—the damn paradigm needs to be thrown-out altogether. Nobody is a bigger fan of actor Thomas Cassidy than Libby. Nobody. That's why she's totally going to marry him. She's going to write a novel, name the main character after Thom, and find a way to get it to him. Intrigued and flattered, he

will read it, fall in love with her prose, and ask to turn it into a movie. She will pretend to think about it, then say, 'Sure, but can I work on it with you?' Their eyes will meet over the script... and fade to black. But with four interwoven lives in play, can anything be that simple? Thoughtful, quirky, and moving, Unscripted is a story of friendship and second chances, and asks the question: how far can you take your dream?

Is the financial plan of mediocrity -- a dream-stealing, soul-sucking dogma known as "The Slowlane" your plan for creating wealth? You know how it goes; it sounds a lil something like this: "Go to school, get a good job, save 10% of your paycheck, buy a used car, cancel the movie channels, quit drinking expensive Starbucks mocha lattes, save and penny-pinch your life away, trust your life-savings to the stock market, and one day, when you are oh, say, 65 years old, you can retire rich." The mainstream financial gurus have sold you blindly down the river to a great financial gamble: You've been hoodwinked to believe that wealth can be created by recklessly trusting in the uncontrollable and unpredictable markets: the housing market, the stock market, and the job market. This impotent financial gamble dubiously promises wealth in a wheelchair -- sacrifice your adult life for a financial plan that reaps dividends in the twilight of life. Accept the Slowlane as your blueprint for wealth and your financial future will blow carelessly asunder on a sailboat of HOPE: HOPE you can find a job and keep it, HOPE the stock market doesn't tank, HOPE the economy rebounds, HOPE, HOPE, and HOPE. Do you really want HOPE to be the centerpiece for your family's financial plan? Drive the Slowlane road and you will find your life deteriorate into a miserable exhibition about what you cannot do, versus what you can. For those who don't want a lifetime subscription to "settle-for-less" and a slight chance of elderly riches, there is an alternative; an expressway to extraordinary wealth that can burn a trail to financial independence faster than any road out there. Why jobs, 401(k)s, mutual funds, and 40-years of mindless frugality will never make you rich young. Why most entrepreneurs fail and how to immediately put the odds in your favor. The real law of wealth: Leverage this and wealth has no choice but to be magnetized to you. The leading cause of poorness: Change this and you change everything. How the rich really get rich - and no, it has nothing to do with a paycheck or a 401K match. Why the guru's grand deity - compound interest - is an impotent wealth accelerator. Why the guru myth of "do what you love" will most likely keep you poor, not rich. And 250+ more poverty busting distinctions... Demand the Fastlane, an alternative road-to-wealth; one that actually ignites dreams and creates millionaires young, not old. Change lanes and find your explosive wealth accelerator. Hit the Fastlane, crack the code to wealth, and find out how to live rich for a lifetime.

An uncommon guide to getting you what you want, when you want it. From the guy who has been coaching entrepreneurs on how to retire for over a decade. This book will make you UNSTOPPABLE by learning: The FIVE lies they have taught us, and how these lies are holding you back. How to discover who

you really are and what you really want. How to break free from fear, and leverage it as a source of fuel. How a US Marine won the battle within, and broke free from PTSD. How to finally purge the people and problems from your life with ease. How to build a support team that will help you every day for FREE. The real reason why others fail, and how you can use this insight to succeed. To finally know, in this moment, that you are enough and can live your dreams

Ernie Johnson Jr. has been in the game a long time. With one of the most recognized voices in sports broadcasting, he is a tireless perfectionist when it comes to preparing and delivering his commentary. Yet he knows that some of sports' greatest triumphs--and life's greatest rewards--come from those unscripted moments you never anticipated. In this heartfelt, gripping autobiography, the three-time Sports Emmy Award-winner and popular host of TNT's *Inside the NBA* provides a remarkably candid look at his life both on and off the screen. From his relationship with his sportscaster father to his own rise to the top of sports broadcasting, from battling cancer to raising six children with his wife, Cheryl, including a special needs child adopted from Romania, Ernie has taken the important lessons he learned from his father and passed them on to his own children. This is the untold story, the one Ernie has lived after the lights are turned off and the cameras stop rolling. Sports fans, cancer survivors, fathers and sons, adoptive parents, those whose lives have been touched by a person with special needs, anyone who loves stories about handling life's surprises with grace--Unscripted is for all of these.

The story of economic growth and development deserves to be told time and time again. It is a story that will likely never get old, and a story that could potentially improve the life of millions. One of the most important takeaways for any student of economics is that economic performance impacts almost every aspect of our lives. By and large, places that are more economically developed tend to have a higher life expectancy, generate more art and culture, provide better education and better opportunities than places that are less developed. In many respects, economics is just as important today as medicine was in Medieval Times. But, just as healers in Medieval times had a spurious knowledge of what made a sick person better (e.g. blood-letting was considered a cure-all for diseases for quite some time), so do economists today have a spurious knowledge of what makes a sick economy better. The very foundation of economics, up to a few years ago, was built on the fallacious premise that humans are rational beings, and economists have been more pre-occupied with

developing fancy mathematical models rather than trying to understand the world around them. This book focuses on the big topics of growth and development, and aims to bring together some of the key lessons of economics we have learned so far, while also trying to provide some new lessons. As such, the book is as much a compilation of existent major growth and development theories and ideas, and an attempt at an original contribution to this large field. You will be the judge of whether this task was actually achieved or not.

For many marketing professionals, "science" is a four-letter word. They see brand-building as an unteachable art guided by their intuition and experience. But at its core, marketing aims to seed ideas into people's minds, make them feel a certain way, and, ultimately, get them to act. In Brand Seduction, Daryl reveals the latest psychological and neuroscientific discoveries about how our minds process brand information and make decisions, and the important roles our emotions and unconscious play in our selections. Welcome to the new world of neuromarketing. Through simple language, engaging stories, and real-world examples, Brand Seduction shows you how to decode, build, and use these hidden brand fantasies to grow your brand and business. You'll learn: The surprising unconscious side of brands. The biggest myths about consumer psychology. The real role of emotions in building brands. Practical tools to use neuroscience to inspire better marketing. Everyone seems to have a different idea of what brands are, how they work, and how they are built. Brand Seduction digs deeper into the nature of brands, how they exist and behave in the mind, and how marketers and business leaders can use this understanding to "seduce" customers and grow their businesses.

When Andrew Morton's world-famous biography, *Diana: Her True Story*, was first published, it caused a media frenzy, and shook the British Establishment to its foundations. Later revealed as having been written with the Princess's full cooperation, this international bestseller is now widely regarded as her official biography. Yet it was not the full story, as in all the sound and fury of its publication, Diana began a journey - a courageous evolution from life as a downtrodden wife and reluctant royal to a self-confident and independent modern woman. *Diana: In Pursuit of Love* follows this journey, picking up the story where Andrew's first book left off and uses new sources and material as well as a wealth of previously unpublished matter and 16 pages of stunning photos. The book reveals the stories of figures such as her renowned lover James Hewitt, her butler Paul Burrell and Prince Charles's valet, Michael Fawcett, while intriguing comments that Diana made to Morton in taped conversations become extremely important in view of subsequent events. *In Pursuit of Love* is an honest, unbiased account of one of the most admired, influential figures of our era and the definitive study of Diana.

Mallicoat explores core topics on women as victims, offenders, and criminal justice professionals as they interact with various areas of the criminal justice system. She investigates relevant subjects that are not found in many traditional texts, including women who work as victim advocates and international issues of crime and justice relating to gender. Key Features: This text discusses women and victimization prior to covering women as offenders, because victimization is often a precursor to offending. Case Studies present compelling examples that
