simplest way to teach or to learn any subject is to commence at the beginning, and take each step in logical order. In bookkeeping, start with the transaction. The next step is the journal entry to record the transaction. The journal entry is the basis of every entry in any book of original entry. The first record of every transaction is a journal entry or its equivalent. The Ledger Account is the record of final entries, the end of the transactions so far as bookkeeping is concerned. Hence, the logical development must begin with the journal entry and develop toward the Ledger account as the final record in the routine of bookkeeping, terminating in the Trial Balance. Accounting is the auditing of the bookkeeping to determine the correctness of it, the preparation of the Balance Sheet and Profit and Loss Statement, the closing of the books to correspond with these statements, the preparing of analysis sheets or detailed statements, schedules and comparative statements for the information of the management of the business. There are two sides to every question, and, if only one side is considered and the other side ignored, the idea is hazy and incomplete. This is notable in every argument of a question. There are two sides to every business transaction, and if both sides are considered at the same time, the idea is clear and complete. The journal entry of a transaction considers both sides, and the idea is complete in the mind and the record is complete in the books. Carrying out this plan of logical development by easy steps, and securing the complete idea for each step before the next step is taken, not only the routine of bookkeeping is made easy to learn, but the

"Terrifying... Eloquent... A heart-rending drama of human yearning." --New York Times In April 1992 a young man from a well-to-do family hitchhiked to Alaska and walked alone into the wilderness north of Mt. McKinley. He had given \$25,000 in savings to charity, abandoned his car and most of his possessions, burned all the cash in his wallet, and invented a new life for himself. Four months later, his decomposed body was found by a moose hunter. How Christopher Johnson McCandless came to die is the unforgettable story of Into the Wild. Immediately after graduating from college in 1991, McCandless had roamed through the West and Southwest on a vision quest like those made by his heroes Jack London and John Muir. In the Mojave Desert he abandoned his car,

stripped it of its license plates, and burned all of his cash. He would give himself a new name, Alexander Supertramp, and, unencumbered by money and belongings, he would be free to wallow in the raw, unfiltered experiences that nature presented. Craving a blank spot on the map, McCandless simply threw the maps away. Leaving behind his desperate parents and sister, he vanished into the wild. Jon Krakauer constructs a clarifying prism through which he reassembles the disquieting facts of McCandless's short life. Admitting an interest that borders on obsession, he searches for the clues to the drives and desires that propelled McCandless. Digging deeply, he takes an inherently compelling mystery and unravels the larger riddles it holds: the profound pull of the American wilderness on our imagination; the allure of high-risk activities to young men of a certain cast of mind; the complex, charged bond between fathers and sons. When McCandless's innocent mistakes turn out to be irreversible and fatal, he becomes the stuff of tabloid headlines and is dismissed for his naiveté, pretensions, and hubris. He is said to have had a death wish but wanting to die is a very different thing from being compelled to look over the edge. Krakauer brings McCandless's uncompromising pilgrimage out of the shadows, and the peril, adversity, and renunciation sought by this enigmatic young man are illuminated with a rare understanding--and not an ounce of sentimentality.

Mesmerizing, heartbreaking, *Into the Wild* is a tour de force. The power and luminosity of Jon Krakauer's storytelling blaze through every page.

taxes that you withhold from your employees' paychecks are part of their wages that you pay to the United States Treasury instead of to your employees. Your employees trust that you pay the with-held taxes to the United States Treasury by making federal tax deposits. This is the reason that these withheld taxes are called trust fund taxes. If federal income, social security, or Medicare taxes that must be withheld aren't withheld or aren't deposited or paid to the United States Treasury, the trust fund recovery penalty may apply. See section 11 for more information. Pub. 15-A includes specialized information supplementing the basic employment tax information provided in this publication. Pub. 15-B, Employer's Tax Guide to Fringe Benefits, contains information about the employment tax treatment and valuation of various types of non-cash compensation. Pub. 535 discusses common business expenses and explains what is and is not deductible. The general rules for deducting business expenses are discussed in the opening chapter. The chapters that follow cover specific expenses and list other publications and forms you may need.
