There's a famous saying that goes "You've got the same chance of winning the lottery whether you play or not. "Now of course that's not strictly true. You've actually got about a 1 in 292 million chance of winning the Powerball jackpot. But that's about as close to zero as you can get. And yet, every year, the average American spends \$219 on lottery tickets. Each hoping they'll be the one. So that's over \$4 a week, every week. But if I asked those same people to buy a single \$219 ticket once a year, do you think they'd buy one? Of course they wouldn't. Because they could then see how much they'd be losing. But because it's such a tiny, regular amount they can't see it. They never win, but they live in hope. And that's how most people live their lives. They never win, but they live in hope. Because they're playing someone else's lottery. And the odds are just too big. But how about, instead of playing someone else's lottery, you played your own. In fact, how about if you were the only player? Then you'd be sure to win. So that's exactly what this book is about. Learning how to play and win your own lottery, instead of playing and losing someone else's.

The world is an increasingly complicated place, but one rule has held true for centuries: People who have financial security control the destiny of people who don't. People who are financially secure live longer and healthier lives. They have the freedom and independence to pick what they want to do for a living, where they want to live and to create a financial legacy for their families and causes they support. So why do so many people who "have it made" run through their money and wind up broke? Why do the majority of lottery winners, injury victims, professional athletes and people who receive an inheritance run through it all so quickly? A better question: How do you keep it from happening to you? How do you protect your retirement, injury settlement or inheritance in a way that will keep you financially secure for life? In his fourth book, best-selling author and financial guru Don McNay offers concrete solutions to those questions. McNay draws upon his internationally recognized expertise on what to do when you win the lottery and his 30 years experience as a structured settlement consultant to show people how money can provide them with happiness, security and peace of mind. Although McNay has a strong academic background with two master's degrees and

four financial professional designations, the book is written in a style that everyone can grasp and understand. He breaks the book into five sections, based on the five rules of thumb that he gave to lottery winners in his 2008 bestseller, *Son of a Son of a Gambler: Winners, Losers and What to Do When You Win the Lottery*. McNay said that his book is about financial freedom. "Real freedom means stability, security and independence," he said. "It means never running out of money. It means never having to work at a job you hate, because you can't afford to quit. It means never becoming a slave to your creditors. It means having control and stability in your life." *Life Lessons from the Lottery: Protecting Your Money in a Scary World* is the road map to finding that kind of freedom.

HOW TO WIN THE LOTTERY WITH THE LAW OF ATTRACTION was written by Law of Attraction lottery winner, teacher and author Eddie Coronado. Based on interviews with actual winners who have used the Law of Attraction to win lottery prizes, this book provides the metaphysical tools and insights that are necessary to win lottery and contest prizes through the creative power of thoughts and feelings. Although this book contains the manifestation techniques of people who have won money, these metaphysical exercises can be used to attract the perfect mate, a new career, financial success, or anything that you can make a part of your beliefs and feelings. There is no limit to how much money and success you can manifest through the Law of Attraction because this immense spiritual power does not have an opinion about what you should or should not have. You can use the Law of Attraction to manifest ten cents or ten million dollars. The determining factor is belief and expectancy, which can be harnessed by using the spiritual tools discussed in this book. THIS BOOK CONTAINS FOUR PARTS: PART 1: This section explores the tools that are used for the manifestation techniques in this book. The tools covered are as follows: Affirmations, Creative Visualization, Expectation, Gratitude, and the Practice of Receiving. You should take the time to carefully read this section even if you are familiar with the Law

of Attraction and the power of intention. This section contains a number of insights and explanations that may have been missed by other authors and teachers. For example, the Practice of Receiving is a powerful tool that can help you attract a lot of money, yet many Law of Attraction books do not mention this important exercise. In addition, I have included some helpful information about gratitude and affirmations as it relates to manifesting money. Affirmations of words, thoughts, feelings, and actions are also covered. Finally, the most important element of any manifestation technique is creative visualization, which every Law of Attraction lottery and contest winner has used to win prizes.

PART 2: This section includes the manifestation techniques used by the winners who were interviewed for this book. Each winner, including the author, is introduced and his/her manifestation exercise is documented to reflect the exact steps taken to win lottery prizes. No changes have been made in order to preserve the integrity of each winner's method.

PART 3: This is a Question and Answer Section that covers the most important questions about the manifestation techniques in this book. The answers have been provided by the lottery winners who were interviewed. This Question and Answer section will provide clarity and direction for those readers who are committed to using the Law of Attraction to manifest lottery prizes. The questions included in this section cover topics such as: Should I buy lots of tickets? How will I know that my intention will work? How long will it take for me to get results? What part does luck play in manifesting lottery prizes? In addition, a host of other important questions are discussed.

PART 4: This section contains helpful tips and suggestions that will explain how to implement the following manifestation techniques and how to make the most of them. It also contains information regarding the common denominators of the winners' daily action plan in order to provide a clear understanding of the mental and emotional habits that are necessary for manifesting lottery prizes with the Law of Attraction.

When I host book signings and give lectures on lottery prediction, people always ask, If lotteries are random draws, how can they be predicted? I always answer the same way. Lotteries are predictable because we have the ability to redirect subtle energy. With about 20 to 30 people present, I always ask how many are familiar with subtle energies. No one has ever raised their hand. And, why should they! It's only been within the last 30 to 40 years that Science discovered subtle energies and their role in manifesting human desire. It's only been within the last 10 years that this research and experimentation has been available to the general public in books like Lynne McTaggart's *The Intention Experiment* or Dr. Tiller's *Conscious Acts of Creation*. As a matter of fact, it has only been this year (2013) that Dr. Peter Higgs won the Nobel Prize for his work on the God Particle. The first subtle energy particle ever found at the new CERN accelerator. With these discoveries and experiments on the redirection of subtle energy, Scientists believe that a new technology has been born. Significantly more powerful than electromagnetic energy, significantly more powerful than nuclear energy, subtle energy technology will bring about new ways for human populations to interact, and new ways to communicate. It will significantly change our health care industry and influence the movement towards world peace. Most interesting, are the time and space attributes of subtle energy that allow the human mind to predict the future and consequently win lotteries. In the science of Quantum Mechanics, experimenting at the level of subtle energy, scientists found that their observations were affecting the outcome of the experiments. Somehow, the experimenter's consciousness

was having an effect on our everyday reality of atoms and elements. This led to other experiments many concerning time displacement. As it turns out, subtle energy does not conform to the way you and I experience sequential time. Subtle energy is unbound by time and space - giving it predictive potential. A few daring researchers now understand subtle energy to be a vast field of potential energy supporting our everyday reality and somehow this energy is intimately interconnected with our minds.

Consequently, at this stage of subtle energy technology research, researchers are studying ways that the mind can amplify subtle energies to manifest human desires for better health, wealth and abundance, world peace, lasting vitality, and prophetic vision. Dream a Lottery Win Tonight, specializes in the application of subtle energy and its prophetic vision attributes. We accomplish this by activating an energized intention near the mind's source of subtle energy. In this way, we amplify the intention to win a lottery. Of course, we could amplify any intention including those for better health or world peace. We decided on lottery prediction not because it was easy but because it was difficult and because the results are quantitative not subjective. In developing the skill of prophetic vision to win a lottery, we use an energized intention activated as close to the mind's Source of subtle energy as possible. To get close to the Source, we use mantras. These mantras resonate frequencies that are specific to the results we seek. In this case, we use the Lakshmi Mantra, used since antiquity to enhance ones abilities at games of chance. Once close to the source, we activate an energized intention. The intention is energized with emotion and bright sense visualizations. We perform this meditation just before retiring enhancing our dreams allowing us to predict a winning number. In this way, we use subtle energies to win the lottery. Larry Vingelman Author A seemingly ordinary village participates in a yearly lottery to determine a sacrificial victim.

The fundamental question of the ethics of belief is "What ought one to believe?" According to the traditional view of evidentialism, the strength of one's beliefs should be proportionate to the evidence. Conventional ways of defending and challenging evidentialism rely on the idea that what one ought to believe is a matter of what it is rational, prudent, ethical, or personally fulfilling to believe. Common to all these approaches is that they look outside of belief itself to determine what one ought to believe. In this book Jonathan Adler offers a strengthened version of evidentialism, arguing that the ethics of belief should be rooted in the concept of belief—that evidentialism is belief's own ethics. A key observation is that it is not merely that one ought not, but that one cannot, believe, for example, that the number of stars is even. The "cannot" represents a conceptual barrier, not just an inability. Therefore belief in defiance of one's evidence (or evidentialism) is impossible. Adler addresses such questions as irrational beliefs, reasonableness, control over beliefs, and whether justifying beliefs requires a foundation. Although he treats the ethics of belief as a central topic in epistemology, his ideas also bear on rationality, argument and pragmatics, philosophy of religion, ethics, and social cognitive psychology.
